

## **Mobile Health— Product Management**

Mobile Health is looking for an experienced product management professional to help us continue on our mission to change the healthcare system.

Mobile Health has quickly become one of the largest and fastest growing digital healthcare SaaS platforms in the US. Our goal is to help our customers make a culture of health simple.

Mobile Health provides communications, competitive and collaborative wellbeing team challenges, educational content, incentives, tools, and real-time analytics that individuals and employers can use to improve workforce health and overall wellbeing for employees and their families. We have millions of users and hundreds of employers on our platform working to improve their health, fitness and reduce their health care costs.

### **Why join Mobile Health?**

- We have an amazing team -- experienced, creative people, who work in a highly collaborative environment, tackling important work together.
- We have an incredible product.
- We work with great technology.
- We have tons of happy customers.
- We make a real difference for our customers and their employees.
- We operate in the fast-growing health tech sector.
- We offer industry competitive compensation and benefits.

### **Primary Responsibilities**

- Partner with cross-functional teams to ship new, impactful platform capabilities and end user facing experiences.
- Work closely with stakeholders to deeply understand, analyze, and synthesize user needs into product priorities and product management artifacts.
- Lay out well-researched tradeoffs and structure great discussions to facilitate high quality product decision making.
- Create necessary artifacts for stakeholders (e.g.: prioritized use cases; specifications; flow diagrams).
- Work alongside our designers to deliver high quality, intuitive & engaging experiences for our end users.
- Build cross functional relationships and manage complex, cross-functional projects.
- Contribute to the strategy and roadmap of Mobile Health's product and platform.

## **Qualifications**

- 4+ years of product management experience.
- You can identify problems and seek solutions in ambiguous spaces.
- You have a proven history of shipping and iterating on successful products and/or platforms.
- You can effectively communicate, provide context, set direction, evangelize and drive cross-functional alignment.
- You have experience leveraging data to drive product and strategic decisions.
- Preferred experience
  - Experience in the healthcare or wellness space.
  - Technical background.

## **Location**

- United States (can be remote). Our headquarters is in the San Francisco Bay Area, but we've developed a robust remote working structure.
