

## **Mobile Health— Data Operations Specialist— Work from anywhere in the U.S.**

Mobile Health is looking for a Data Operations Specialist to help us continue on our mission to change the healthcare system.

Mobile Health has quickly become one of the largest and fastest growing digital healthcare SaaS platforms in the US. Our goal is to help our customers make a culture of health simple.

Mobile Health provides communications, incentives, tools, and real-time analytics that individuals and employers can use to improve workforce health and overall wellbeing for employees and their families. We have millions of users and hundreds of employers on our platform working to improve their health and fitness and reduce their health care costs.

### **Why join Mobile Health?**

- We work with great technology
- We have an amazing team (experienced, creative people, collaborative environment)
- We have an incredible product (growing healthcare space)
- We make a real difference for our customers (and their employees' lives)
- We offer industry competitive compensation and benefits

### **Job Description**

- Responsible for review and maintenance of inbound and outbound data file integrations
- Script files to support the automation of data intake
- Manage error reports to facilitate correction of data errors from external partners
- Optimize workflows for scalability in a rapidly growing organization
- Collaborate with team members from various parts of the organization for ongoing enhancement and optimization of processes, procedures and tools
- Works with Personal Health Information; is responsible for taking training and following defined procedures

### **Skills and Qualifications**

- B.S. degree in Computer Science, Software Engineering or related discipline preferred
- 2-5 years of professional experience in a similar role

- Experience with Python, PostgreSQL, and Linux
- Experience in data file scripting
- Proactive and flexible in response to changing priorities in a client-centric, fast-paced, dynamic environment while meeting deadlines and exceeding customer expectations
- Self-motivated and able to master new technologies and concepts via hands-on learning
- Disciplined and able to work remotely from your home
